Dear Madame/Sir,

The International Society of Zoological Sciences (ISZS), together with the International Union of Biological Science (IUBS), will hold its 4th International Symposium of Integrative Zoology (4th ISIZ) at the Kunming Hotel in Kunming, the capital city of Yunnan Province, China, December 4 to 6, 2010. The theme of the symposium is Biological Consequences of Global Change - Data Analysis and Sharing.

4th International Symposium of Integrative Zoology Topics

- Global changes and biodiversity
- Global changes and species conservation
- Global changes and agricultural disaster
- Global changes and diseases
- Global changes and biological invasion
- Study on global change in botanical gardens
- Paleogeologic data and analysis
- Historical data collecting and analysis
- Biological specimen data collecting and analysis
- Analytical tools and methods

About the ISZS Research Program "Biological Consequences of Global Change"

The focus of the international scientific research program Biological Consequences of Global Change (BCGC) is to organize a diverse group of international experts with expertise in many scientific disciplines to understand the biological consequences of endangered species, biological invasion and biological disasters that are a direct result of global change and human activities.

Currently, participating scientists include 16 established scientists from the USA, Australia, Norway, Chile, Russia, India and China have joined the program.

ISZS Young Scientists Award

To encourage students to be more involved in scientific community, the ISZS young scientist award was established to provide financial support of up to 2,000 RMB for five young scientists and/or graduate students to attend this symposium. Researchers under 35 years of age may apply.

Those wishing to be considered must submit a manuscript (review, original article or essay) to Integrative Zoology no later than 1 October, 2010. Along with the manuscript, applicants must submit an application letter outlining their research goals and achievements and a recommendation letter from a superior. Submissions should be emailed to inz@ioz.ac.cn.

The winner will be notified in mid-October and receive a certificate and financial award during the symposium.

We look forward to seeing you at the 4th International Symposium of Integrative Zoology. Please do not hesitate to contact us if you have any questions.

Sincerely,

International Society of Zoological Sciences
