Granites and Adakites – What is the difference? Graniet en Adakiets – Wat is die verskil?	
YOUR NAME:	STUDENT NO:

INSTRUCTIONS

Write a one page report on the difference between granites and adakites. Be sure to include information on the different mineral assemblages and how you would go about classifying the different types of granites and adakites.

In order to complete this assignment you should attend the lecture by Prof Clemens on Wednesday afternoon, the 26th.

This report must be typed and remember that plagiarism is not tolerated.

INSTRUKSIES

Skryf 'n een bladsy verslag oor die verskille tussen graniet en adakiet. Wees seker om informasie van die verskillende mineraal samestellings te lys en hoe u die verskillende tipes van graniet en adakiet sou klassifiseer.

Om die taak te kan doen behoort u die lesing deur Prof John Clemens op Woensdag middag, bytewoon.

Dis verslag moet getik wees en onthou dat plagiaat nie toelaatbaar is nie.
